

John Cleary: Graduated from Whitmer High School in 1958. Born in November, 1940.

After graduation I went to the University of Toledo, graduating in Engineering.

Then I started my career with The Ford Motor Company in Sandusky, Ohio. I got married and we lived in Sandusky for 13 years. We had three children.

In 1978 I was moved to Toronto as Manager of Quality Ford of Canada.

In 1983 they moved me to Ann Arbor. In 1985, we moved to Brazil as Manager engineering and Quality. In 1988 we returned Lancaster, PA as a corporate manager of Supplier Quality.

Unfortunately, during the next several years my wife and I departed our ways. In 1991, it was back to Brazil as director of Quality Ford Tractor and Engine. I also remarried to a Brazilian 18 years my junior.

In 1992, I left Ford and moved to Kohler, Wisconsin to work for the Kohler Company. I became Director of Quality for the company. In 1995, we moved back to Brazil to start up the business of Johnson Control as Plant Manager. In 1999, we moved to Shanghai China to start up another plant. In 2001, I became the CEO AGD G. M. of a joint adventure in Shenyang China (5 Plants and 4000 people).

Finally, in 2003, I retired and settled in Salvador Brazil in front of the sea. I play some golf, read a lot and play and teach Bridge. I am currently in the process of writing a book on Bridge.

I also volunteer twice a week to work for the Catholic Church to help the poor here in Salvador. All this keeps me busy while I enjoy retirement and all the relaxation that Brazil offers.

Feel free to contact me thru Classmates or email/phone.
