

Patsy Harrell Stagg: Born in Illinois and lived in Houston, St Louis, and then Toledo where I graduated from Whitmer High School in 1958.

After Whitmer, I attended Bowling Green State University and then business school, but my real desire was to work for the airlines. American Airlines hired me as a stewardess and later several other jobs. After being a stewardess, I married Jim Stagg (class of 57). We lived in El Paso, Toledo, Cleveland, Houston, Salt Lake City and back to Houston, where we have

lived for the past 33 years.

We have three children, they are all married and live near us. We also have six grandchildren. My dad and sisters also live near by and we all try to be together for holidays and birthdays.

Jim recently semi-retired from Hajoca where he was the Houston branch manager (Hajoca is a pipe valve and fitting company that sells to mechanical contractors). He continues to work for them on a part-time basis consulting and in sales. He plays some golf, likes old cars and is looking forward to working on our 36 Ford now that he has more time.

I enjoy being Mom and Grandma.

Another great joy for me has been being in Leadership with Bible Study Fellowship International for many years. I have had some fun, hobby-type jobs that include part-time sales representative and airport services for American Airlines and several tour companies.

We also enjoy our church, our friends and traveling. And we recently moved to a one story house.

When Jim and I married, in 1962, we didn't realize that not only were we to graduate from Whitmer, but all of his siblings and their spouses were to be Whitmer Grads too - along with his Mom (Helen Marie Stagg, class of 1931). So it has been fun to be in a Whitmer family.

Hoping to see you at the reunion or keeping in touch.

My Favorite Memory of Whitmer High: I have many fun memories of being at Whitmer. The friends, football games, the dances, just trying to grow up and learn at the same time in a friendly environment.
