

**Susan Hines Richbourg:** – Born in June, 1940 graduated from Whitmer in 1958.

My husband, Roland, and I moved to Canton, Georgia just two years ago. You guessed it – to be near our only two grandchildren. We live in a lovely swim, tennis and golf community called Woodmont about 35 miles north of Atlanta. None of the amenities are for us since we neither swim, nor play golf or tennis, but the “Grands” sure enjoy them. They are a boy, Mitchell age 6 and a girl, Kinsey age 4. Our daughter Wendy

made us wait forever to get them. We also have a son, Mike, age 45 and still single. He also lives in Atlanta. Anybody know any free spirited single young women?

We love our new home and community and are making many new friends, but we miss all our friends in Toledo – many of whom have come to visit us in Georgia.

I worked for fifteen years just prior to moving to Georgia for a group tour company as a tour escort, planner and coordinator. It was a dream job! I traveled all over the U.S. and Canada as well as to several European countries. I worked at many part time jobs over the years but none that I enjoyed as much as the travel position.

My husband is originally a South Carolinian so he is nearly back home. We are just two hours from his former home, Clemson, S.C.

My hobbies, in addition to travel are quilting, knitting, bridge, entertaining, reading and some gardening (as much as is possible in this hard Georgia red clay.)

**Favorite Memory of Whitmer High:** There were many good memories, the friends, the dances, the proms, the band, and the football games; however, I'll have to say that I still remember that we didn't have a class trip. Now wouldn't that have added to our memory book?
