

**Jeanne A. Mohler:** Graduated from High School in 1958. I was born in April, 1940.

In 1957 my family moved to Denver, Colorado seven months before graduation, so I left Whitmer. It was a very traumatic event for me, since the fifth grade I had been at Horace Mann and was as we all were the 1<sup>st</sup> class to graduate from the new Jr. High. My parents came back in December and I was unable to finish at Whitmer thus graduating from DeVilbiss. I have always considered my school family the class of 1958 and in my mind that is where I graduated from – this was my family.

In October of 1959, I married Edward Foley and we went on to have four children. Divorce came in 1987 after 28 years of marriage. During that marriage we built three homes two in Washington Township – my children went to Meadowvale School till we built a home in Whitehouse and all four children graduated from Anthony Wayne High School. The main reason for our move to Whitehouse was a campground that we invested in and Ed and I successfully managed it for ten years.

After the divorce, I eventually ended up in a not for profit agency as a scheduler of appointments for clients counseling for drug and alcohol treatment, aids and other disabilities and addictions. I worked for seven years at the Family Services of Northwest Ohio and Behavioral Connections of Wood County and I am now working part time answering the phone. I am not wealthy in money but I still love to laugh, read, listen to music and enjoy nature. I have met a lot of interesting and wonderful and unfortunate people. I hope I made a difference in that I tried to give a compliment, smile and treat everyone the same. The proudest achievement for me is being able to watch all my children become college educated.

Edward Foley MBA from the University of Notre Dame and a bachelors in business from University of Toledo he is 46. He has three children one enrolled at WI Lacrosse. He and his family have traveled Europe and Asia. He is employed at Kimberly Clark. His wife is a registered Nurse and they live in Appleton, WI.

Debra Foley Hertzfeld is 44 and has been a registered nurse at St. Luke's Hospital for over 20 years. Her husband is the head of the Hertzfeld Poultry Inc. Company a family business. They have three children; the oldest is enrolled in his second year at Bowling Green State University. They live in Whitehouse, OH and have traveled to Europe and Asia also.

Cheri Foley Palko is 40, divorced and has three girls all 6 and under. She received her bachelors in Education and was a 6<sup>th</sup> grade teacher. She went on to pursue her Master in school Guidance and in employed as a guidance counselor at Ottawa Hills grade school. She lives in Sylvania.

Jennifer Foley Kowalski 35 is a registered nurse specializing in dialysis. She is employed at St. Ann's hospital. Her husband is an Engineer with Federal Mogul Co. They have two little boys and have just purchased a home in Perrysburg, OH.

I now have eleven grandchildren – 5 boys and 6 girls; ages 20 years down to 1.

I didn't have a college education but realized that it was important to having a better life that it did open doors to all kinds of adventures and provided you with a higher quality and safe life. I believe that any occupation that provides you with employment opportunities enhances your chance for a better quality of life.

**My Favorite Memory of Whitmer High:** The warmth of the school and the students – going to get a hamburger at the Panther Grill and that was hard to beat. Love to all and love to those who have gone but are in our hearts and memories
