

**Larry Pool:** Graduated from Whitmer High School in 1958. I was born in January 1940.

After our great years at Whitmer, I graduated from Case Institute of Technology in 1962. I married Betty Hall (Clay High 1960) in 1963. (A Pool-Hall wedding some might say.) We have a son and

two daughters, and eight grandchildren – 6 boys and two girls.

We live in Maumee (part of the time) and have a second home in Alpharetta, GA to be near our daughters' families. We still divide our time about equally between Georgia and Maumee, as our son and daughter-in-law (with 3 boys) live in Ann Arbor, MI.

I am retired, having spent most of my career selling machinery to make welded metal tubing. I covered the Midwest and had some guys working for me on the East Coast. It was a good career, but retirement is even better -- traveling, fly-fishing and spending so much time with the grandkids.

Life has been truly a blessing.

**My Favorite Memory of Whitmer High:** Whitmer was a terrific learning experience, and building the Homecoming floats were some of the more fun things we did – although I don't think we ever took first prize.

Mrs. Fontaine was a special teacher who was good at challenging us to do better than we thought we could do.
