

Sue Rummel Garner: Graduated from Whitmer High School in 1958. I was born in September, 1940.

After High School, I spent four years in Texas at Abilene Christian University, plus a year internship in Dallas, studying Medical Technology. After graduation, I moved back to Toledo and have been here ever since.

My first real job was in 1963 at The Toledo Hospital and I retired from there in 2007. Pretty boring eh? I worked in several positions within the Clinical Laboratory during those years, including several as supervisor of the chemistry department. Actually, I am still going back occasionally when they need extra help.

Along the way, I began singing with the Toledo Choral Society and met Alfred Garner who is from East Liverpool, Ohio, an Ohio State Graduate (GO BUCKS) and an architect with a local firm. We dated probably three or four years before we married. We have two children, John, who lives in Findlay, Ohio, and Steven who lives in Pittsburgh, PA. We also have two grandchildren, Ronald, (13) and Bradley (11.)

Al and I enjoy classical music and have continued to sing with the Choral Society most of our married life – took a few years off when the kids were growing up. Church activities, Boy Scouts, camping with the family and ordinary things have occupied most of our lives. We do enjoy travelling but always find home is best.

We have done various volunteer work as I'm sure most others have, but perhaps the most rewarding time was spending a week in the New Orleans area helping clean up after hurricane Katrina.

I decided when I retired to learn to play golf. Never have been interested in golf before, but figured that is what you are supposed to do when you retire. I am enjoying it, but am only at the "hit the ball and chase it stage."

We have recently acquired a place in Okeechobee, Florida which is really nice in the winter. Good place for golf and fishing. We were able to spend about six weeks there this year and are looking forward to longer stays in winters ahead.
