

Carol Schulz Hafner: Graduated from Whitmer High School in 1958. Born in July 1940. After high school, my first job was with Clifford C. Loss, Builders as a receptionist. The following year, I accepted a position in accounting at the Ohio Telephone Co. It was during this time that I met a “sailor” Richard. We were married June 25, 1960, in May of '61; I joined him in Virginia Beach following his return to the states. Upon discharge

from the Navy we moved to Sylvania. We have three wonderful children Michael, Peggy, and Scott. We were foster parents for newborn babies five years for Lutheran Social Services which was a very rewarding experience for us all. Our three children have given us four grandchildren: Aleacia, Michael, Ian, and Taylor; and one Great-Granddaughter Charolette.

After being a full-time Mom for eighteen years I went to work for Dr. H. G. Gordon as office manager from 1981-1991; and then worked for Heath Care Retirement (HCR) as Medical Records Director, 1991, retiring in 2000.

We traveled with our children throughout the country and parts of Canada, retirement now finds us spending our entire summers at our “cabin” in the upper peninsula of Michigan. As “YOOPERS”, we enjoy fishing, canoeing, and riding our ATVs. Up there they say everything below the “Big Mac” is Ohio.

I keep myself busy with many crafts, especially knitting, crocheting, sewing, plus any new craft that comes along, I'll try! Along with our adventures Up North we enjoy traveling to Virginia, Kansas, and out West. I am busy with church activities, a club “Knitting for Others” knitting afghans for battered women and children. My husband Richard is a Beekeeper this keeps him busy; the bees sure produce a lot of honey!!!!

Favorite Memory of Whitmer High: There are many good memories, however, I believe being in the marching and concert band were the best! Memories of the away football games were so much fun and the train ride to Defiance we will never live down. Library Council is also a good memory, Miss Brown, “LB”, for those of us in the library, she made everything fun, even filing the books away (does anyone even remember the Dewey Decimal System) no computers back then!!!! We must not forget our class was the only one that didn't win a float!!!! But we sure had fun working on them.
