

Nancy Wolfe Dansard: I graduated from Whitmer High School in 1958. I was born in October 1940.

A friend of mine says "how did we get so old...so fast?!" Isn't that the truth...as long as we don't start acting or thinking this age!

I spent my freshman year of high school in Joliet, IL before moving to Toledo. I was at Ottawa Hills the next two years and, by a stroke of luck, I landed at Whitmer's doors. You welcomed me with open arms and I shall always remember you.

My freshman year of college was at Purdue University and then on to Bowling Green. I loved every minute of my three+ years of college! I met husband #1 who later became the father of our children. I have been blessed with two absolutely wonderful sons from that union. I'm not going to elaborate on the rest of my married life!

John Melick, my first-born, a graduate of The University of Michigan, is the NW Ohio Complex Manager, Wachovia Securities. He and his wife, Judy, have given me four perfect (of course) grandchildren who live about four minutes from me...am I lucky! Andrew Melick, my younger child, is a graduate of The University of Miami, Coral Gables, FL and is single. He is a commercial photographer and has had studios in Miami and New York City. His portfolio is mainly celebrities including Gloria Estefan, Mohammed Ali, Eartha Kitt, etc. Andy recently moved to Chicago (a lot closer to Toledo!).

Am I an obnoxious, bragging mother...let me tell you about my grandchildren! The oldest is sixteen, the youngest is ten. They are on their honor rolls and one is on the Quiz Bowl, basketball and lacrosse teams, sophomore homecoming court attendant, captain of the cheerleading squad and it just gets better each year! Over the past 50 years I've enjoyed my family, of course, and old and new friends, Delta Gamma, the Junior League, gardening, reading cooking (sometimes!) and my puppy. I've also traveled quite a bit. I've "played" with interior design for about thirty years.

I think we grew up in the best of times...no wars, no drugs, etc. I pray things will improve for all.

My Favorite Memory of Whitmer High: I truly do have all good memories from that one special year - the football and basketball games, the sock hops, pizza at the Venetian, Mr. Foster, having to stay after school and writing "I will not talk during homeroom period again" 100 times on the blackboard in Mr. Smith's room, the proms (you even made me the senior prom queen!). Slumber parties, parties at our house - a big one after the prom. I even had fun riding the bus! I was in the Circus - my one feat, the cartwheel, must have impressed someone, somehow!
